Security Video Camera Cabling Systems

Published on October 2005

Report Summary

Study reveals a new market growth opportunity

' Security video camera cabling offers double-digit cabling growth opportunity.

' Recent terrorist attacks in London underground system promote expansion of security video camera systems in the U.S.

' Security video camera system cabling is evolving from analog coax cabling to digital UTP structured cabling

' New technology developments foster structured cabling systems: networking digital cameras, Web server cameras, power over Ethernet and others are all described and analyzed.

' The study examines 3 major cabling architectures:

Coax Cabling

UTP Cabling

Fiber Cabling

' Learn which of these cabling system is growing

' Learn the market characteristics of each cabling system

' Learn the advantages of each

' Learn the market forecast and growth for each

' 'Security Video Camera System Cabling Market' forecasts sales for major cabling products:

Cables

Connectors

UTP Patch panels

Fiber media converters

' Product segment forecasts include:

1) UTP by categories

2) Fiber by SM-MM
