## Cardiovascular Medicine: Diagnostics, Drugs and Devices

*Published on November 2007*

### Report Summary

This report contains: Descriptions of various types of cardiovascular diagnostics such as in vitro tests and in vivo imaging techniques, devices such as drug eluting stents, and drugs such as Pfizer's blockbuster Lipitor; The current market status of cardiovascular diagnostics, devices and drugs, along with trends and forecasts for growth over the next 5 years; Technological issues including the latest developments and a thorough patent analysis; Analysis of the cardiovascular diagnostics, devices and drugs industry, both from a market and application perspective; Information about the major players in each market, including Medtronic and Boston Scientific in devices, Sanofi-Aventis and BMS in drugs, and Abbott in devices.
